

Moog Sound Studio Accessory Kit

Moog Music announces the release of the new Moog Sound Studio Accessory Kit, a comprehensive solution designed to optimize and protect your semi-modular synth setup. This all-in-one accessory kit is the perfect addition for any Moog enthusiast looking to enhance their Mother Ecosystem experience.

The Moog Sound Studio Accessory Kit includes a versatile 3-tier rack system that allows you to mount any combination of Moog's Mother-32, DFAM, Subharmonicon, Spectravox, and Labyrinth synths together for maximum modularity. Accompanied by a four-channel summing mixer and a suite of custom cables, this kit makes it easier than ever to connect and power your entire Moog Mother Ecosystem from a single source.

Moog introduces the Sound Studio Accessory Kit

Tuesday, 03 September 2024 18:45

What's Included:

- **Four-Channel Summing Mixer:** Provides flexible routing options and power distribution for up to three 60HP instruments.
- **3-Tier Rack System:** Saves studio space and organizes your setup for optimal workflow.
- **Protective Dust Cover:** Made from rugged Ballistic Cordura, it safeguards your instruments from dust and spills.
- **Patch Cable Organizer & Custom Cables:** Keeps your workspace clutter-free and ready for creative exploration.

The Moog Sound Studio Accessory Kit will be available now through authorized Moog dealers worldwide.
