KLOTZ USB AC 3.1 Super Speed

This premium USB AC 3.1 cable is designed for very fast data transfers and charging of notebooks, cell phones, tablets and other mobile devices. It supports data transfers with up to 10 Gbit/s and charging with up to 3A current. The robust yet very flexible PVC outer jacket and double shielding provide protection against external interference, such as power cables laid in parallel, and ensure interference-free data transmission even under adverse conditions. Of course, the USB-AC cable is also downward compatible with previous USB specifications, whereby the maximum transmission rate of the respective specification is achieved.
