Audeze MM-500

Audeze, in collaboration with their new Head of Professional Products, 11-time Grammy-winning engineer/producer Manny Marroquin, announces the MM-500. This headphone has been purpose-built from the ground up to deliver studio-quality sound, reimagined, for mixes that translate well and capture the emotion the artist intended.

Built to offer all-day comfort, the MM-500 sports a new lighter chassis design

Phoca PDF

featuring machined aluminum, spring steel, and premium leather earpads. The planar magnetic drivers feature patented Audeze technologies to deliver lightning-fast transients and accurate frequency response that professionals rely on. The MM-500's low impedance and efficiency ensure compatibility with virtually all audio interfaces and consoles.

The MM-500 is available for pre-order now, first shipments are expected in August 2022. The MM-500 played an instrumental part in mixing Kendrick Lamar's "Mr Morale & the Big Steppers" at Larrabee Studio, make this the essential tool to create your next project.

The price for the AUDEZE MM-500 planar magnetic headphone is $1699.
