Output and Reason Studios Arcade & Reason+ Bundle

Output Inc. and Reason Studios, two market leaders in music production technology, have partnered together to create the “Arcade & Reason+ Bundle,”a complete package of instruments, effects and samples for music creators. This package pairs two of the most exciting plugin collections on the market for music makers.

“We are thrilled to partner with Reason to create our first-ever bundle of this kind, allowing music makers even easier access to the tools they need to get creative in the studio,“ says Gregg Lehrman, CEO at Output Inc.

Every new song idea starts with a spark, and music creators have been relying on Output Arcade and Reason+ as two of the best production bundles to help generate musical ideas. Output and Reason Studios have teamed up to pair these two powerful plugins together, offering access to hundreds of instantly playable, mind-blowing instruments - the perfect starting points for the next idea.

“Both Reason+ and Arcade have the same goal: helping music producers to focus on their creativity and ideation. The pairing of Reason’s virtual studio rack of innovative synthesizers, drum machines, players and audio effects with Arcade’s inspiration machine of samples and playable instruments is the complete creative bundle for music producers, and at an unbeatable price too,” says Niklas Agevik, CEO at Reason Studios.

Both the Reason Rack Plugin and Arcade support all plugin formats (VST/AU/AAX) and can be used in any DAW, whether it be Ableton Live, Pro Tools, Logic Pro, FL Studio or any other major DAW.

The bundle includes two annual subscriptions - one to Reason+ and one to Arcade. The package costs $249/year (saving producers 17% if they would purchase both annual subscriptions separately), but through July 14 users can snap up this deal for just $149 for the first year. Learn more about and sign up for the bundle at the website below.

Highlighting the launch, Output and Reason Studios will be hosting a livestream event on the Reason Studios YouTube channel on July 5 at 10 a.m. PDT with artist and producer Yana Mahal. Expect plenty of great stories and music-making tips.
