

Plug & Mix V.I.P. Bundle v4 Upgrade

Plug & Mix (P&M) announces the release of the long-awaited V.I.P. Bundle v4, (a free upgrade for previous owners) that redefines the experience of quick, high-quality audio processing. The P&M V.I.P. Bundle, celebrated by sound engineers and producers around the globe, returns with new power and versatility, offering 50 essential plugins that sound amazing and remain incredibly easy to use. Each plugin in this best-selling collection is purpose-built to do one thing exceptionally well, making the V.I.P. Bundle the true Swiss knife of audio plugins.

In today's demanding audio industry, where speed is crucial, Plug & Mix V.I.P. plugins have become go-to tools for professionals during fast-paced recording sessions. From creating lush flanger effects on guitar tracks to dialing in precise EQ or reverb, the V.I.P. Bundle is designed for rapid, straightforward application, delivering stunning results in moments. Each plugin in the series features intuitive controls and thoughtfully crafted presets, allowing users to find the right sound instantly without getting lost in endless parameters.

The V.I.P. Bundle v4 delivers the best version of these plugins yet. Each plugin's DSP has been meticulously optimized to meet the needs of modern DAWs and operating systems, including macOS 15 (Sequoia) and Windows 11. This update introduces resizable GUIs, giving users the choice between the classic look or the sleek new "Carbon" black skin.

As part of an introductory launch, all individual V.I.P. plugins v4 are available at an
