

### Presentation Lineup Announced for AIMS TechFest 2021 Presents IP Showcase

The Alliance for IP Media Solutions (AIMS) today revealed the presentations confirmed for AIMS TechFest 2021 Presents IP Showcase. Hosted by AIMS, in partnership with the Advanced Media Workflow Association (AMWA) and the Video Services Forum (VSF), the free online event is slated for May 25-26, with live daily sessions scheduled from 10 a.m. - 1 p.m. EDT each day. AIMS TechFest 2021 Presents IP Showcase is dedicated to educating the broadcast and Pro AV industries on the latest progress in achieving an all-IP ecosystem using open standards.

Presentation lineup:

Tuesday, May 25, 10 a.m. - 1 p.m. EDT

- IP Systems: The Big Picture: by Brad Gilmer, Executive Director, AMWA and VSF
- Live Media Production – The Ultimate End Game: by Andy Rayner, Chief Technologist, Nevion
- A Review of the IP Live Core Implementation in BBC Cymru Wales - Central Square, Cardiff: by Mark Patrick, Lead Architect, BBC; Mike Ellis, Head of Production Architecture, BBC; and Dan Ashcroft, Senior Project Manager, BBC
- Bridging the Gap between Broadcast and Network Monitoring and Measurement: by Michael Waidson, Application Engineer, Telestream
- A Frank Discussion of NMOS: Panel discussion moderated by Brad Gilmer,

Executive Director, AMWA and VSF

Wednesday, May 26, 10 a.m. - 1 p.m. EDT

- IP Video/Audio Taxonomy - A Field Guide: by Wes Simpson, Founder, Learn IP Video
- The Once and Future Impact of Moore's Law on Networking: by Robert Welch, Principal Engineer, Arista Networking
- IPMX for Broadcast Installations: by Jean Lapierre, Senior Director, Advanced Technologies, Matrox
- ST 2110 Over WAN - The Conclusion of Act 1: by Andy Rayner, Chief Technologist, Nevion
- ST 2110: Monitoring the Future of Live Remote Production: by Kevin Salvidge, European Regional Development Manager, Leader Europe Ltd.
- Automated Inventory Discovery and Management for Hybrid NMOS Compatible & Proprietary Broadcast Infrastructure: by Thomas Gunkel, Global Market Director Broadcast, Skyline Communications

These live presentations will feature end users, industry associations, solutions providers, and technology developers, who will share their knowledge and perspectives on how developments in IP workflows are shaping the industry. In addition to attending these presentations, attendees will have the opportunity for face-to-face discussions on current approaches to standards-based IP deployment across the broadcast and Pro AV markets.

Registration details, further information on AIMS TechFest 2021 Presents IP Showcase, and the full presentation schedule is available at the website below.
