

sE Electronics KLS 150

sE Electronics introduce the KLS 150, marking a truly significant moment in the history of sE Electronics. For the first time, we are expanding into the professional headphone market, opening an exciting new chapter for our brand and our global portfolio. We are incredibly proud to take this step and even more excited to embark on this new journey together.

Engineered for critical listening, mixing, recording, and live sound, the KLS 150 combines innovative Bass Control, exceptional long-session comfort, excellent isolation, and accurate, balanced monitoring. Its versatile design makes it equally at home in the studio, at a live event, or simply enjoying your favorite music. Built for engineers, musicians, producers, creators, and music lovers alike, the KLS 150 brings the performance, reliability, and thoughtful design expected from sE to the world of professional headphones. Designed for professionals, the KLS 150 combines customizable monitoring, exceptional comfort, and rugged construction to deliver confidence in every listening session.

Key Features include:

- Adjustable Bass Control – Customize low-frequency response for your workflow.
- Interchangeable Ear Cup Covers – Customize the look while protecting the Bass Control knobs.
- Custom 40 mm Dynamic Driver – Accurate, balanced monitoring with controlled low-end.
- High-quality Leatherette Ear Pads with Memory Foam – Exceptional long-session comfort.
- Dual-Shell Earcup Design – Superior sound isolation for reliable monitoring in studio and live environments.

- Glass-Fiber Reinforced Construction – Lightweight durability built for professional use.
- Detachable Locking Cable – Secure, reliable connection.
- 90° Swiveling Earcups – Convenient one-ear monitoring.
