

sE Electronics X1 A Red & White

The X1 A 2C Red and X1 A 2C White bring the bold styling first introduced during sE's 25th Anniversary celebration into the lineup permanently. Available in striking Red & Black and White & Black finishes, these refreshed versions of the trusted X1 A combine proven performance with standout aesthetics that help capture attention both in-store and online.

Inspired by the 25th Anniversary Edition: Customer-favorite finishes introduced during sE's 25th Anniversary celebration are now available as permanent additions to the lineup.

- **Two Finishes:** Available in Red & Black and White & Black.
- **Proven Performance:** The same trusted X1 A sound and reliability that have made it one of the most recommended entry-level condenser microphones worldwide.
- **Broad Appeal:** Ideal for vocals, instruments, podcasts, streaming, and content creation - an easy recommendation for customers stepping into professional recording.
- **Standout Shelf Presence:** Bold finishes help differentiate the X1 A while maintaining the trusted performance customers expect.
- **Built to Last:** Rugged all-metal construction and sE's signature build quality ensure long-term value.

sE Electronics introduces New Permanent Additions to the X1 A Lineup
