Sonuscore LUX Orchestral Strings

LUX Orchestral Strings marks Sonuscore’s most ambitious string library to date - recorded with a 70-piece symphonic ensemble on a world-class scoring stage. Designed for composers seeking the authentic sound and emotion of a real symphonic string ensemble in their own studio.

LUX captures the magic of classic film scores - from majestic themes to tender, emotional textures. Every note carries the depth and energy of a real symphonic ensemble, transforming musical ideas into immersive cinematic experiences.

Highlights:s

- 70-piece symphonic string ensemble - Violins, Violas, Cellos, Double Basses
- Recorded on a true Hollywood-style scoring stage
- 48 microphones & 22 bleed mics for unmatched depth and realism
- Seamless Articulation Transitioning (S.A.T.) for fluid, natural playing
- Morphing Articulations & Natural String Change Legato for expressive performances
- Mixed by Peter Fuchs (Iron Man 3, Call of Duty, Harry Potter)
- Compatible with the free KONTAKT Player (v7.10.9 or higher)

LUX Orchestral Strings combines the size and emotional depth of a true film

Phoca PDF

orchestra with a direct, inspiring playability. From emotional legatos to precise spiccatos, every articulation responds vividly, expressively, and is ready to mix. LUX is not just another string library, but a new benchmark for orchestral realism - built to turn stories into sound. LUX Orchestral Strings is available now for €499 / $499.
