Soundmit & IFC 2024

Soundmit announces that it will host the International Faust Conference (IFC) 2024 in Turin, Italy, on November 21-22, 2024. The IFC is a biennial event that brings together the global community of developers and users of the FAUST audio programming language. The conference offers a unique opportunity to:

- Learn more about the FAUST language and its various applications
- Meet other professionals in the audio and music industry
- Attend talks, workshops, and panels on a variety of topics related to FAUST
- Contribute to the future development of the language

The IFC 2024 will be held two days before the 14th edition of Soundmit, the international fair on synthesizers, electronic musical instruments, digital music and sound art, which will take place in Turin on November 23-24, 2024. The two events will be united for the first time, creating a unique opportunity for participants to fully immerse themselves in the world of digital audio.
