as Armenia, Cyprus, Iceland and Mexico - that showcased their newest developments and products.

The success of SB24 was also a stepping stone towards SuperBooth’s journey of becoming one of Europe’s premiere pro-audio trade fairs, with over 33 international pro audio brands in attendance. SB24’s performance and musical program was as big as ever, with over 15 workshops and over 40 musical performance slots from a diverse variety of artists and performers.

About 250 members of the international press and media attended, including the most important outlets in the field of synthesizer and music production and many of its biggest YouTubers and content creators. More detailed information about SUPERBOOTH 25 and the upcoming ticket pre-sales will follow in the fall.
