TONE2 Audio releases the 'Higher Realms' soundset for Saurus

Friday, 13 May 2022 11:06

This soundset is ideal for contemporary electronic and ambient music genres. The price is €39 / $39.

"It has been a great pleasure working with this synth. If nothing else, Saurus is the biggest surprise I've had yet with a synth. It is extremely underrated imo and I am amazed it has slipped my gaze for so long. The entire synth is one big sweet spot and it is expertly crafted in a very balanced and sophisticated way. It has become my favorite analog synthesizer!!" - Timothy Ivory (Touch The Universe)
