

Tone2 Audio releases the 'TrapNBass' sound-set for Icarus2

This soundset is suitable for Trap, Bass, Hip Hop, D&B, Dub, RnB and Electronic-Music in general.

Highlights

- 142 patches with many new wavetables
- Seamless integration into the user-interface
- Very easy installation
- Uses the new features introduced with Icarus 2
- Created by a professional sound-designer (Orange TreeStudios)
- The sounds have been carefully normalized
- All sounds are properly programmed - they are 'not just samples'. This gives

you the complete dynamic range, a lot more expression and the highest possible sound quality
