

Tone2 Electra 'Free Sounds'

Tone2 Audio has released a free soundset for their synthesizer-workstation Electra 3.5.

Highlights:

- 20 free patches
- Created by the developer of the synthesizer (Markus Krause)
- This soundset uses the new features of Electra 3.5
- Velocity, Modwheel, Pitchwheel, Key Split and Aftertouch support
- All patches are carefully normalized for consistent volume and clarity
- Comfortable installation and seamless integration into the Electra UI
