

Tone2 Heavenly Flights

This soundsset contains 154 lovingly crafted sounds suitable for contemporary electronic and ambient music.

Highlights

- Includes 154 patches with many new wavetables.
- Seamless integration into the user-interface.
- Very easy installation.
- Uses the new features introduced with Icarus2.
- Created by a professional sound-designer (Touch The Universe).
- Includes over 200MB of embedded samples, wavetables, and attacks.

Tone2 releases Heavenly Flights for Icarus

Monday, 10 January 2022 11:16

- Includes 21 MIDI-files that were used for the audio-demos as a free bonus.
- All patches are volume-normalized. They don't clip and have equal volume-levels when switching presets.
- Complex modulation-wheel destinations for all patches.
- Many patches are velocity-sensitive.
- Nearly all patches are multi-layered. Roughly a third contain new wave multi-samples, most blending any of the many live-synthesis methods of Icarus.

Patch breakdown

- Leads - 27
- Pads & Atmospheres - 41
- Bases - 19
- Plucks - 21
- Keys - 24
- Arps/Sequences - 18
- Instruments/ Choir - 5
