

Tone2 Nemesis 3.1

Tone2 Audio has updated their digital synthesizer Nemesis to version 3.1. The update is available for free for all Nemesis 3 customers and offers these new features and improvements:

Enhanced sound quality:

- Significantly enhanced sound quality when 44kHz or 22kHz is used as the DAW's samplerate. Reduced aliasing up to 12dB.
- Drastically enhanced sound quality when 88kHz or 176kHz is used as the DAW's samplerate. Reduced aliasing up to 20dB.
- Chords sound better when 'Fat 1' or 'very clean' is used as the microtuning mode.
- Enhanced sound of 'Reverb Ultra'. It has better default parameters, a smoother rolloff, less phasing, more detail and more depth.
- Enhanced sound of 'Reverb Big'. It has a smoother rolloff, less phasing, more detail and more depth.
- Enhanced sound of 'Reverb Infinity'. It has a smoother rolloff, less phasing, more detail and more depth.
- Enhanced sound of 'Reverb Plate'. It has a smoother rolloff, less phasing, more detail and more depth.
- Enhanced sound of 'Reverb Trance'. It has a smoother rolloff, less phasing, more detail and more depth.
- Enhanced sound of 'Reverb Glass'. It has a smoother rolloff, less phasing, more detail and more depth.

Tone2 releases Nemesis 3.1

Thursday, 02 April 2026 10:24

- Enhanced sound of 'Reverb Large' by using 64bit processing. It has more detail and transparency.
- Slightly enhanced sound of 'Reverb Medium' and 'Reverb Small'. They have less noise floor and more transparency.

New features:

- It is more easy to see soundsets in the patch browser. They have blue color.
- Template patches have grey color in the patch browser.
- Enhanced graphics:
- Reworked the background skin. Diodes and displays have color bleeding.
- The keyboard has softer shadows.
- Reduced noise and glitches.

Further enhancements:

- Better init patch parameters.
- The installer is smarter and VST3 is installed with the default setting.
- Many small enhancements.

Downward compatibility:

- Nemesis 3.1 is downward compatible with all previous versions. Existing song projects and patches can be loaded without any further steps necessary. They will benefit from the enhanced sound-quality.
