

Touellskouarn Blokañ

The Blokañ ring modulator sets itself apart from conventional ring modulators with its special vintage-style tube/transformer design.

Features:

- Eurorack ring modulator with tubes and transformers
- Built-in VCO with carrier saw wave
- Ext in allows for external carrier signals
- Rich 1950s vintage sound thanks to tube-diode design
- Tubes mounted on front panel for easy exchange
- Compatible with 6AL5, EB91, EAA91 type tubes
- Unique character compared to other ring modulators
