

## UJAM VORTEX, WEBCORE, DUST

UJAM expands its popular Usynth series with three new titles, VORTEX, WEBCORE, and DUST, each designed to reflect a different corner of today's ever-evolving electronic music landscape. Together, they embody the energy and experimentation of the online music scene, from distorted nostalgia and glitched textures to hypercharged bass and expressive arpeggios. Built upon UJAM's easy-to-use yet powerful synth engine, Usynth VORTEX, WEBCORE, and DUST let producers explore genre-defining sounds without diving into complex synthesis. Each title delivers 100 ready-to-play global presets, 100 synthesizer patches, and intuitive macro controls that make sound design fast, musical, and fun.

The Next Gen Bundle consists of:

- Usynth VORTEX: Channels Trance essentials from the late '90s and Y2K era into today's sonic world. Its high-energy palette focuses on sharp, edgy, and powerful sounds, from thick supersaw anthems and rave stabs to driving arpeggios and hard Trance basses.
- Usynth WEBCORE: A celebration of chaos and creativity, tuned for Hyperpop, Digicore, and glitch-inspired production. It delivers aggressive tones, metallic textures, and moments of digital unpredictability.
- Usynth DUST: Lo-fi meets liminal. With degraded pads, dusty keys, and vintage-inspired instruments, it turns warmth and imperfection into musical

atmosphere.

Sound designer ZXMABLUE, curator of the Next Gen Bundle, was challenged to create three Usynth concepts that capture the sound of today's online music scene. "To me, this spectrum - ranging from distorted nostalgia and hypercharged basslines to glitchy textures and expressive arpeggios - is what drives musical innovation today," said ZXMABLUE. "I hope that between VORTEX, DUST, and WEBCORE, everyone finds inspiration and moments of bliss."

Usynth is available in VST2, VST3, AU2, and AAX formats for macOS and Windows for the following prices:

- Introductory price (per title): \$29
- Introductory price (bundle): \$49
- Loyalty price (per title): \$19
- Loyalty price (bundle): \$39
- Price (per title): \$49
- Price (bundle): \$129
