Audeze at NAMM 2022

Audeze has huge things in store at NAMM 2022. They are launching a new product, and announcing three new partnerships: Stop by booth 14717, North Hall, right next to the Pro Audio Lounge, to meet their team and demo all their latest gear. They'll have a sound isolation booth for quiet listening with their flagship headphones, and a very special music industry guest Friday and Saturday from 12 PM–2 PM.
