VSL announces free Synchron Updates

Vienna Symphonic Library announces a series of free updates that further expand the creative potential of its acclaimed Synchron Series libraries. Alongside these enhancements, VSL launches an all-encompassing woodwinds promotion, offering discounts of up to 40% on a wide range of woodwind collections.

Synchron Woodwinds now includes newly recorded lyrical and virtuosic legato articulations for Flute 2, Clarinet 2, and Bassoon 2. Lyrical legato offers a slower, a bit more pronounced and beautifully natural transition between notes in slow and medium tempos. The also included new virtuosic legato is specifically designed for fast phrases. The bonus patches will also be included in every new purchase of Synchron Woodwinds.

The latest updates also introduce the new Flow View to both Synchron Strings Pro and Synchron Duality Strings (colors). This intuitive and inspiring interface presents the essential controls of each instrument, enabling a smooth and immediate playing experience. Intelligent algorithms manage articulations and musical expression, allowing for efficient and musically coherent performances. With its clear layout focused on tone, performance, and sound, Flow View is designed to be easy to understand, visually refined, and highly playable.

With these updates and offers, VSL continues its commitment to providing deeply expressive, innovative tools for composers and music creators worldwide. All updates are available now and free of charge for existing users.
