

VSL Synchron Duality Strings Bundle

Vienna Symphonic Library announces the release of the Synchron Duality Strings Bundle, bringing together all six Duality Strings Collections in one powerful package at an attractive bundle discount. Each Synchron Duality Strings Collection unites two contrasting string ensembles within a single, perfectly synchronized instrument. Recorded simultaneously at Vienna Synchron Stage, a large ensemble in the renowned Stage A and a smaller, more intimate group in Stage B perform together in real time - ensuring seamless alignment across every articulation, nuance, and dynamic layer.

The new bundle is currently available at the introductory price of €1,299 (reg. €1,699) for the Standard Library and €1,999 (reg. €2,699) for the Full Library. Users with one or more registered Duality Strings Collections can complete their bundle at their personal discounted price and combine it with the current promotional savings.

At the core of Synchron Duality Strings lies the innovative Duality Principle. By capturing both ensembles at once in separate acoustic environments, composers and producers can blend symphonic breadth with direct, transparent detail - without phase issues or artificial layering. The result is a cohesive, life-like string sound that offers exceptional flexibility, from bold cinematic statements to refined, intimate textures, and everything in between, all within a single, streamlined workflow.

To celebrate the release, Vienna Symphonic Library is launching a comprehensive Vienna Strings Promotion, featuring discounts of up to 45% on all Vienna Strings collections - including Synchron Series and Studio Series libraries, as well as the

entry-level string sections of the Synchron Prime Orchestra and the Big Bang Orchestra. This limited-time offer provides composers and producers worldwide with an inspiring opportunity to expand their sonic palette with scoring stage and studio recordings of various section sizes and solo instruments that reveal the expressive depth, precision, and musicality that define Vienna's acclaimed string sound.
