ZenDAW and Plugivery Release Reveal

ZenDAW and Plugivery Distribution release Reveal; an innovative Touch Workspace software for Ableton Live.

Reveal is available at pro audio dealers around the world at the Introductory Price of $29 (List $65) from May 4th, 2021 through May 16th.

Reveal is a powerful touch workspace for Windows 7 and above. It has been designed to efficiently control Ableton Live (DAW) from any physical touchscreen found on the market. Reveal smart scripts give access to over 150 Live key commands and functions from the tip of a finger.

Commands are located exactly where one would expect them to be on a Touchscreen Monitor for Windows OS platforms without having to think about it. It preserves the artist's inspiration thanks to an improved technical workflow.

Reveal doesn't install software drivers or overlays within Live. It lives natively within Windows' built-in touch OS environment. It is therefore super stable compared to other touchscreen controllers found on the market.

Ready to use gesture assignments cover all commands performed by users, such as:

- Show/Hide Views
- Editing

- Quantization
- Insert Tracks/Scene or MIDI Clips
- File browsing
- Loop Nudge & Selection
- Zooming
- Computer MIDI Keyboard, Transport functions
- Navigation to Shorten/Lengthen Loop
- Show/Hide Browser
- Capture MIDI
- Capture and Insert Scene
- Toggling Device/Clip
- Detail View and Arrangement/Session views
- Groove Pool
- Selection of Grid types

Reveal runs under Windows 7 to 10 with no coding or drivers needed, and a ready to use platform workflow within Live 10 and above.

- Over 150 ready to use (pre-mapped) Live touch screen actions.
- Built within Windows touch OS for rock solid stability (No drivers are installed within Live).
- Reveal Template automatically adapts to your touchscreen monitor size.
- Reveal commands are easy to memorize thanks to smart color codes, menu titles, and personalized button icons.
- Reveal looks good. You feel happy working with it. It improves your workflow.

System Requirements & Compatible Hardware

- Windows 7 or above.
- A 16" to 24" FULL HD Touchscreen Monitor (recommended)*.
- Ableton Live 10 or above.

* Touchscreen monitors can easily be found online at less than $200.

List Price: $65
Introductory Promo: $29

An introductory promotion shall be available from May 4th, through May 16th, 2021, at the highlighted price above.
