Arturia Analog Lab & Play

Introducing a free-to-use version of the production-standard preset browsing plugin. Play with 100 fresh presets from V Collection, Pigments, and beyond, plus a quick-fire interface that makes sound exploration & playing a breeze for everyone. Analog Lab Play is the perfect introduction to sound exploration, putting the best sounds at the fingertips of musicians, producers, and new users.

Here’s what’s included:

- The finest presets: Save time & find the right presets for any style in seconds, from trap bass to ambient synths.
- Easy to use: A minimalist layout with macro controls for playful & immediate changes to each preset.
- The sound store: Quickly browse presets, save favorites, and explore hundreds of free & premium expansions.
