

Behringer FLOW 4V, FLOW 4VIO & FLOW 4BAG

Behringer are announcing three brand-new products, built specifically for video production. Visit us at NAMM and try out FLOW 4V in person. We'll be at the Anaheim Convention Center, North Hall Level 2, Booth 17501.

What's inside:

- Dual-stage mic preamps with true 32-bit converters for no-clip audio
- Internal 8-track mixer with EQ, filters, dynamics, and Auto-Mix
- 10-track multitrack recorder for full post-production control
- USB audio for seamless integration with modern workflows
