Headphone Amplifier Cookbook - 2nd Edition

All important facts about headphone amplifiers from Fried Reim

From time to time we draw the attention to books and specialist literature. In this case I would like to introduce the Headphone Amplifier Cookbook from specialist Fried Reim. He is the mastermind behind the well known companies Lake People and Violectric.

On more than 50 pages Fried Reim writing in the second book edition about frequency limitations, symmetry, volume control, integrated circuits and so on. In the last chapter he gives also a historical overview about the evolution of the Lake People and Violectric headphone amplifiers.

You can download the book as a PDF here from our Web site for free:
